The company began in 1995, when the Lavoie family acquired their first 2,000-tap sugar bush in Témiscouata. This marked the beginning of a long adventure, marked by several acquisitions that today total 100,000 taps. With a deep-rooted passion for maple at the heart of the family business, the Lavoies created “Sirop de l’Est” in 1998.

This new branch of the company distributes and exports bulk maple products, now producing the equivalent of several million pounds of maple syrup each year. The company works with just over 350 loyal producers who, like us, take pride in delivering top-quality maple syrup. In 2014, the installation of new infrastructure expanded our production capacity and helped secure a strong position in the industry.

In January 2017, we launched the “Prestige Maple Products” division to oversee the production and distribution of processed and packaged maple products. At the beginning of 2024, CDL Sugaring Equipment Inc. became the owner of the company, continuing the mission of the facilities while preserving the family values that have guided us from the start.

Maple Syrup

Made from 100% pure maple sap, our syrup is filtered with diatomaceous earth and pasteurized at 96 °C (205 °F) for quality and safety. It's hot-filled at 82 °C (180 °F) into sterilized glass or plastic bottles and available in both conventional and organic formats. Ideal for retail, foodservice, or bulk, it should be stored in a cool, dry place and refrigerated after opening.

In Canada, maple syrup is classified according to the following 4 colors:

Delicate Taste

This maple syrup stands out for its light golden color and soft, delicate flavor. Golden maple syrup is perfect with yogurt or ice cream.

Rich Taste

This maple syrup is known for its amber color, similar to that of rum. It has a richer flavor than the golden variety, while remaining smooth and subtle. Ideal for dressings, pancakes, and desserts.

Robust Taste

This darker maple syrup is recognized for its stronger, more pronounced flavor—often described as having a true “sugar bush” taste. A favorite among maple enthusiasts, it's also great for cooking dishes with sauces or fruity preparations.

Strong Taste

This maple syrup is very dark and stands out not only for its color but also for its bold, intense flavor. Perfect for cooking—especially in sauces, glazes, or to enhance the taste of meats.

Glass Bottles

50 ml
Gallone

Capacity	50 ml
Shelf Life	36 months
Material	Glass
Cap	PE – PP Twist only
Empty Weight	77 g
Full Weight	145 g
Bottle Dimensions	Height: 94.5 mm (3.7") Diameter: 42 mm (1.65")
Box Dimensions	546 x 365 x 108 mm (21 1/2" x 14 3/8" x 4 1/4")
Number of Layers	13
Boxes per Layer	5
Bottles per Box	96

Maple Sugar

Made from 100% pure maple syrup, our maple sugar is produced through a careful dehydration process, then sifted and inspected for quality using metal detection. Available in both conventional and organic varieties, it offers a natural sweetener option with no additives. For best preservation, store in a cool, dry place at 10–25 °C with a maximum humidity of 60%.

Maple Flakes

Our maple flakes are made from 100% pure maple syrup through a dehydration process that preserves their rich, natural sweetness. The flakes are sifted and carefully inspected using a metal detector to ensure quality and purity. Available in both conventional and organic formats, they offer a crunchy, flavourful topping or sweetener alternative. Store in a cool, dry place between 10 and 25 °C, with a maximum humidity of 60%.
